1. Documentation

There are many not started projects in jLaBase, we are now writing the project specifications and planning future implementations. You will find a more updated release of this page and of the documents related with it at the Wiki site (http://jlabase.sourceforge.net/wiki) . If you are searching for the previous *jLaBase Developer's Guide* you will find it here (http://jlabase.sourceforge.net/old-docs/develop/index.htm) .
